# **EXPERIENCE**

# Software Engineer: Rupyy (Cardekho Group) – Gurgaon, Haryana

July 2023 - Present

- Utilized Node.js and Express.js to build robust server applications, implementing user sessions, cookie parsing, and CORS for secure and scalable server-side operations.
- Integrated AWS S3 for secure and efficient fetching of 13+ cyphered images and PDFs, enhancing file management.
- Led the migration of large-scale PHP-based payments website to MERN, enhancing performance and user experience.
- Implemented advanced Redux state management for robust client-side state management, including store creation, reducers, and Redux Persist integration for data persistence.
- Enhanced CI/CD pipelines using Jenkins for automated build and deployment processes, ensuring seamless integration and delivery.
- Developed and maintained dynamic and responsive web applications using HTML5, CSS3, JavaScript (ES6+), and modern frameworks like React.js.
- Deployed containerized applications using Docker, enabling deployment across multiple environments.

#### Software Developer Intern: Snackmagic Vinsol – New Delhi, India

**July 2022 – September 2022** 

- Skillfully executed tasks leveraging Ruby's advanced features including strings, ranges, procs, lambdas, yield, and enumerators, contributing to critical project functionalities.
- Demonstrated proficiency in version control with Git, using commands such as push, pull, commit, merge, and rebase
- Pioneered the automation of over 100 tests using Selenium and Cucumber.

#### Android App Development Intern: *UpTodd* – Noida, Uttar Pradesh - 🗹

April 2022 – June 2022

- Boosted user engagement by 10% through YouTube Base Activity and YouTube Player for suggested videos.
- Enhanced user experience with customized dialog boxes for new feature announcements.

## **EDUCATION**

# Maharaja Agrasen Institute of Technology – New Delhi, India

**August 2019 - July 2023** 

Bachelor of Technology | Computer Science and Engineering - GPA: 9.12

Relevant Coursework: Operating Systems, Data Structures, Algorithm Design and Analysis, Artificial Intelligence, Machine Learning, Computer Networks, Database Management Systems

#### **S**KILLS

Development Skills: Android Development, Flutter, Web, Frontend, Backend, REST APIs, HTML, CSS, AWS Cloud

**Programming Languages:** Java, Kotlin, Dart, JavaScript, Python, Ruby, C++, Typescript SQL, MongoDB, Firebase, No SQL, Relational Database,

Frameworks and Tools: ReactJS, Redux, Express.js, NodeJS, Next.js, Bootstrap, EJS, jQuery, Tailwind, Tableau, Flask
CS Fundamentals: Object-oriented programming (OOP), Agile Development, Data Structures, Machine Learning

Version Control: Git, GitHub, CI/CD (continuous integration and continuous delivery/deployment)

# **PROJECTS**

# Fully Responsive and Modern Portfolio (Next. js 13, Tailwind CSS, Framer Motion, TypeScript)

April 2024

- Developed a fully responsive and modern portfolio website using Next.js 13, showcasing the latest features including the App Router and Server Actions.
- Integrated React.Email and Resend for efficient email functionality, and utilized custom React hooks
- Designed and developed a multi-theme interface with light and dark modes, hosted on **Vercel** for optimal performance

# <u>HealthZoid: Comprehensive Fitness Application</u> (Flask, API Development, SQLite, Mobile App Development)

May 2021

- Developed a fitness app with 10 functionalities such as calorie tracking, step counting, and workout monitoring
- Engineered a Flask-based API for real-time retrieval of food nutritional data, enabling accurate calorie intake management
- Integrated SQLite and shared preferences for secure storage of personal user data ensuring privacy.

# Reopolis: Interactive Apartment Marketplace Web Platform (MongoDB, Express.js, User Authentication)

October 2021

- Developed Reopolis, an interactive web platform with a responsive design using HTML, CSS, Bootstrap, and Express.js.
- Integrated MongoDB for robust data management and utilized Passport.js for secure user authentication

# **ACHIEVEMENTS**

- Winner of the Leetcode Annual Badge 2023: Achieved Annual Badge for active engagement for more than 300 days.
- Mastered over 1100 problems on Leetcode, achieving a global rank within the top 5000
- Selected for Wipro TalentNext program, culminating in the successful acquisition of a Java Certification
- Successfully earned the Infosys Certification, underscoring a comprehensive understanding of industry technologies
